

# MULTIMODAL IMAGING IN COMPLEX DOUBLE OUTLET RIGHT VENTRICLE: NAVIGATION FOR BEST OUTCOME

Webinar | May 13<sup>th</sup>, 2021

*Would really like to see more events like this.*

*Very good presentations, excellent images.*

*Thanks, Astonishing presentations, really enriching and practical.*

*Can not wait next event.*

*Thank you very much! Really professional course.*

*Good speakers and good quality on-line connection.*

*Excellent webinar. No, Just great!*

*This was an excellent symposium. I love that you focused on one specific defect. I look forward to rewatching the talks.*

*This info and perspectives are invaluable for the sonographer so we can be educated imagers.*

*I have a whole new understanding of DORV & look forward to applying what I have learned today.*

*Thank you - I'm looking forward to the next session!*

*Excellent webinar. Just the right amount of duration so that it is not tiring for people to watch and can all remain concentrated throughout.*

*Congratulations, and please carry on with similar events in the future.*

*Thank you for organizing, this is a very interesting and complex topic!*

*Excellent talks! Exceptional, high quality of presentations! I am looking forward to attend the next webinar!*

*Great course. Really informative. Great quality of speakers.*

*I found the idea of prerecording the talks really good.*

*Thanks a lot for organising this. Really great.*

*Excellent webinar.*

*Thank you, Thank you Jan Marek for taking a lead to organize this workshop.*

*I really liked the course. It was very good for my theory and practice for this difficult pathology. Thank you very much!*

*The webinar was great! It exceeded my expectations and I would be very interested in further webinars organized by the same group of professionals!*

*Excellent. Thanks a lot! This was a very nicely arranged meeting and I would love to see you continue with these sessions even after the pandemic situation has eased up on us. Very convenient to participate without having to travel across Europe and still be able to learn from the best!*

*Very useful webinar. Very high quality of presentations enhancing my knowledge on the subject a lot.*

*Very good presentations! Thank you all for the excellent presentation of the topic.*
